HIPS	47	50	54	47	49	51	53	54

Bra Sizing

Your bra size is made up of two parts: your BAND SIZE and your CUP SIZE. Follow the directions below to find your correct bra size.

1. Measure under your bustline. Put on your best-fitting, unpadded bra. Measure tightly around your body, directly below your bust and shoulder blades, making sure the measuring tape is straight. Write this number down. This is MEASUREMENT 1.

2. Calculate your BAND SIZE. If MEASUREMENT 1 is under 33 inches, add 5 inches. If the result is odd, round up to the next EVEN number. If MEASUREMENT 1 is over 33 inches, add 3 inches. If the result is odd, round up to the next EVEN number. Write this even number down. This is your BAND SIZE.

3. Measure across your bustline. Now measure LOOSELY across the fullest part of your bust, using your nipples as a guide. Make sure the tape is straight. Write this number down. This is MEASUREMENT 2.

4. Calculate your CUP SIZE. Subtract MEASUREMENT 1 from MEASUREMENT 2. Compare the result to the chart below to find your CUP SIZE.

If Your Difference is:	0"	1"	2"	3"	4"	5"	6"
Then Your Cup Size is:	AA	A	B	C	D	DD	F

Combine your BAND SIZE and your CUP SIZE for your BRA SIZE (i.e., 34D).
